

Accessories

SL Test Plug

SL-TEST

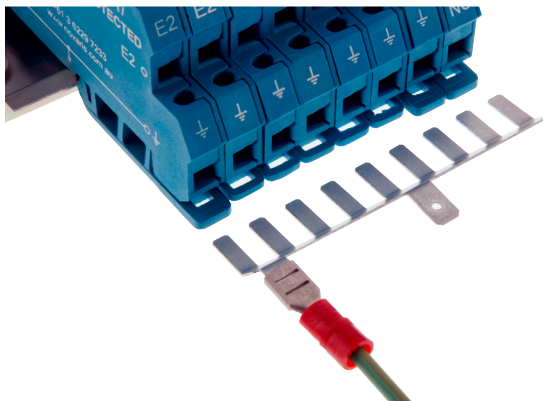

Novaris SL Test Plug provides access to field and equipment terminals plus earth via mini banana sockets mounted in the top face of the test plug. It provides a convenient way to connect to these lines for testing.

SL Earth Comb

SL-COMB

The **Novaris SL Earth Comb** provides a convenient means of connecting the common points of SL series surge protectors. The earth comb contains nine contacts, allowing banks of 8 SL protectors to be commoned together with one overlapping contact. The earth comb can be cut to provide a lesser number of points. The earth comb contains two 6.3mm spade terminals.

Novaris Screwdriver
